GTM Strategy & Growth Marketing

EXPERIENCE

COO

July 2026 to Present

Artifice

- Developed a B2B event marketing offer from early community demand, defining audience positioning, sponsorship opportunities, and partnership proposals.
- Led targeting, partner coordination, and delivery for a 50 seat launch; team results included 180 RSVPs, 61 waitlisted, and approximately 45K organic views.
- Segmented 36K contacts into approximately 4K relevant profiles and built CRM and outreach workflows for community and partnership development.
- Built sponsorship materials and partner packages across programming, hospitality, artist collaborations, and brand activations to support commercial outreach.

Co Founder & Principal Consultant, Product & GTM

January 2025 to Present

Hema Designs

- Led client engagements across 6 early stage startups, diagnosing product and GTM challenges, shaping strategy, and translating recommendations into scoped implementation plans.
- Advised founders on positioning, messaging, landing pages, and pitch narratives for investor and buyer audiences.
- Standardized discovery and intake, reducing scoping turnaround from multiple days to the same day.
- Built Claude Code and OpenClaw research and planning workflows, reducing recurring work from hours to approximately 30 minutes.

PMMCA | GTM, Conversion & Lifecycle Marketing

- Analyzed a funnel reliant on founder outreach for 80% to 90% of reported conversions; refined positioning, pricing, and purchase journeys.
- Launched a four week cohort with landing pages, lifecycle emails, onboarding, Stripe payment testing, and Circle access workflows.
- Used member feedback to reposition annual membership around coaching access; developed renewal messaging and upgrades after a three month trial.

Meg Prime Pay | Product Strategy & Onboarding

- Designed onboarding for crypto funding, ACH timing, and bill payments while identifying product risks before development.

Business Development & Partnerships

January 2026 to Present

Jointley

- Managed 30+ partnership prospects from outreach and qualification through scoping, proposals, and project handoff.
- Qualified agencies, consultancies, and studios for collaborative engagements serving seed to Series A startups.
- Built partner onboarding and follow up workflows, connecting external conversations with internal ownership and delivery.

Founding Designer

June 2024 to January 2025

Tutor Me, Techstars 2024

- Contributed to approximately 5K new TikTok and 3K Instagram followers in two months while owning product design.
- Designed AI guided onboarding and tutorials, applying customer research to early user friction and activation.
- Led design from discovery to launch; aligned founders and engineering on priorities and built a shared design system.

Product Designer

January 2021 to June 2023

Cotiviti

- Translated market research and stakeholder needs into healthcare payments product requirements and business opportunities.
- Designed policy workflows projected to reduce onboarding costs 20%, maintenance costs 30%, and adoption time 35%.
- Built accessible product patterns with product, engineering, and compliance teams to standardize healthcare experiences.
